iRING
ISO 15926 Realtime Interoperability Network Grid

Manoj Dharwadkar, Bentley Systems
(on behalf of Robin Benjamins, Bechtel)
PCA FORUM 2009 AND MEMBERS MEETING
Kuala Lumpur, October 20-21, 2009

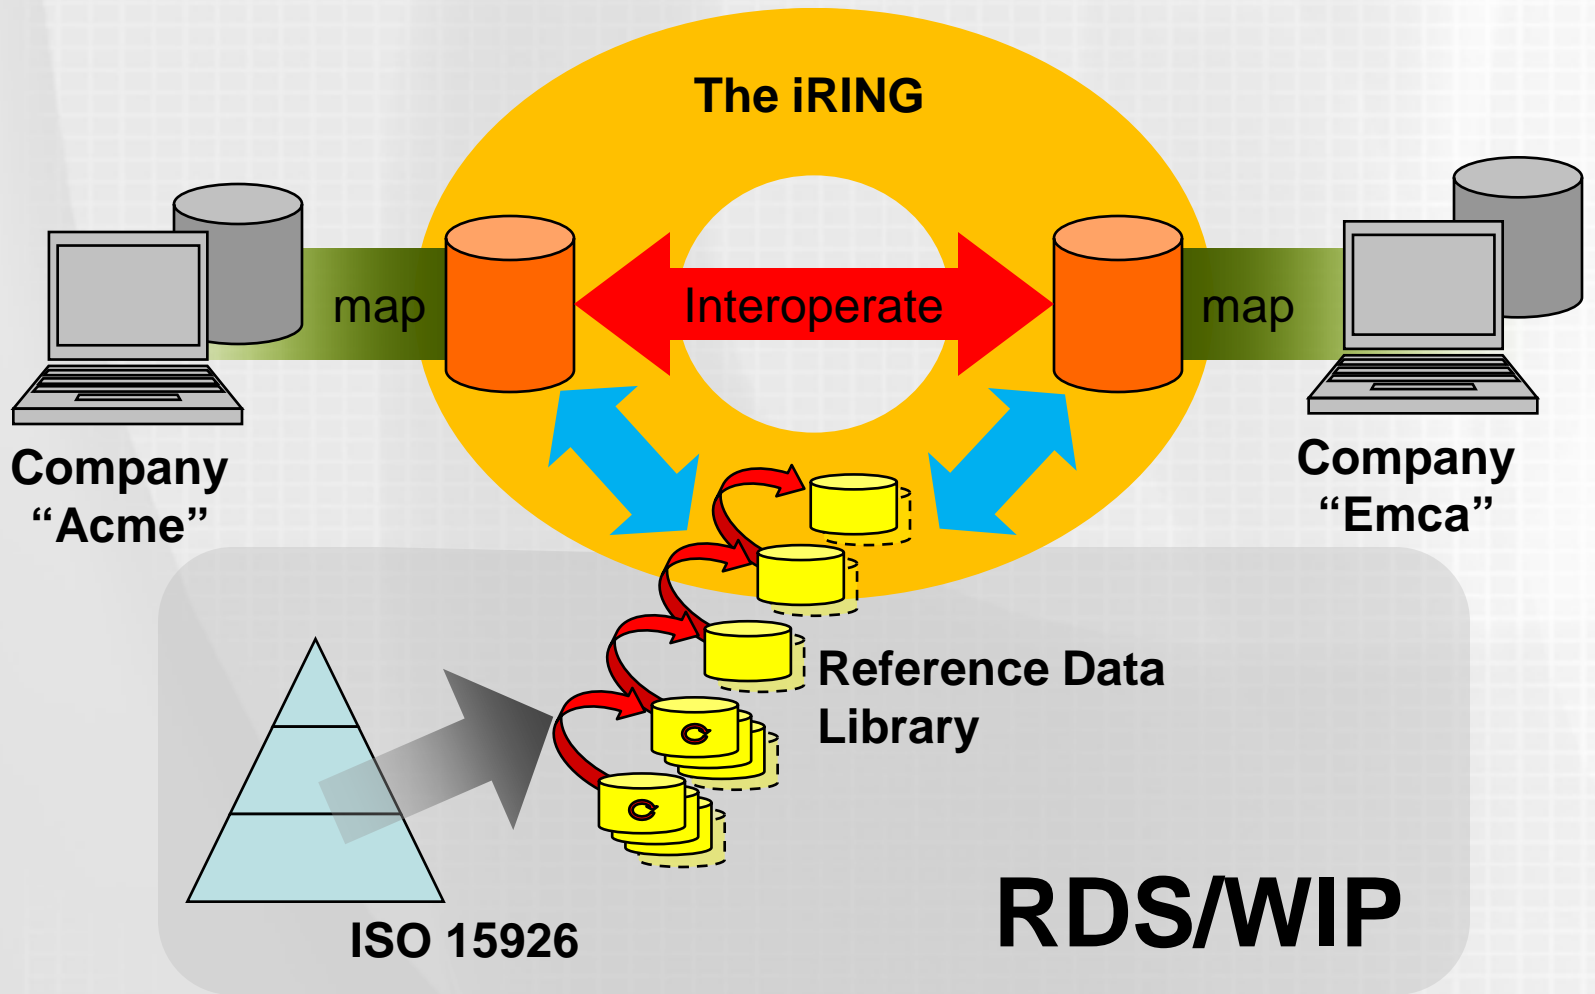

Presentation Overview

- What is iRING?
 - ISO 15926 protocols and reference data compliant with Parts 7, 8, and 9
- Camelot Project History
 - Nov 3rd, 2008 to May 29th, 2009
- Avalon Project – Current Status
 - June 10th, 2009 to Nov 20th, 2009
- Next Steps
 - iRING User Group
 - Recommendations to PCA

Improve Your Interoperability

Start with ISO 15926!

ISO 15926 is a standard for interoperability and the integration of lifecycle information

iRING

ISO 15926 Realtime Interoperability Network Grid

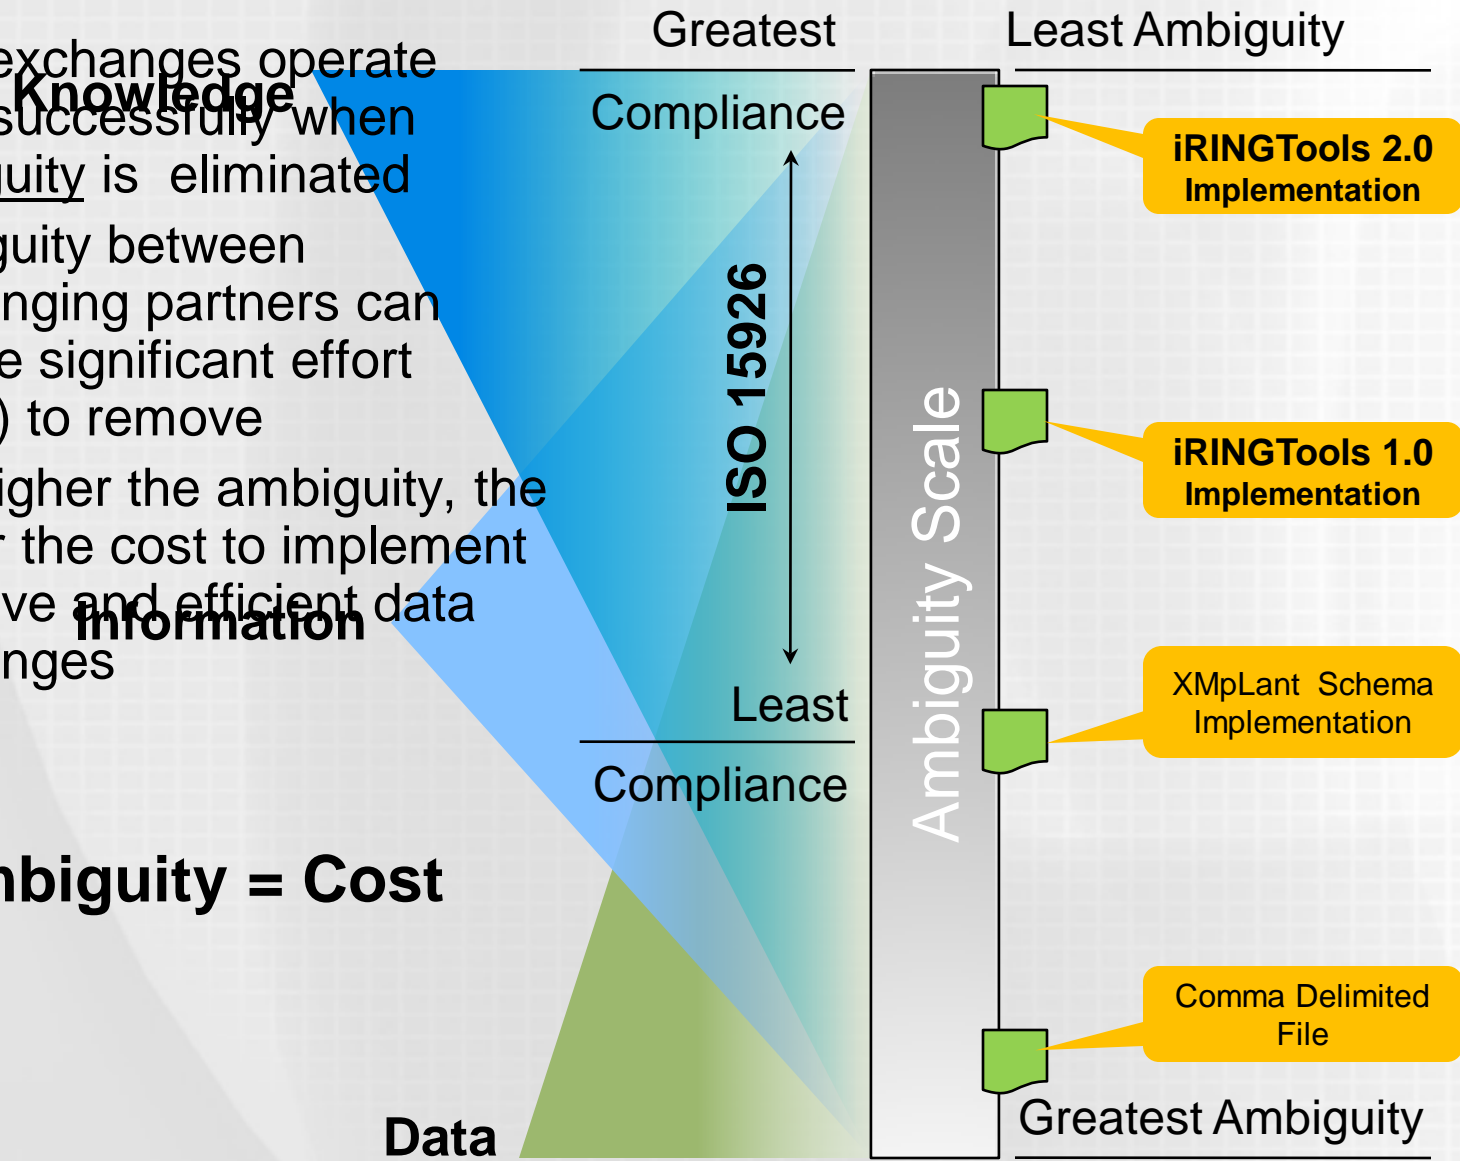

iRING is a set of information interoperability and integration protocols and reference data compliant with the ISO 15926, Parts 7, 8, & 9 standards.

iRINGTools is the open source software that implements iRING protocols.

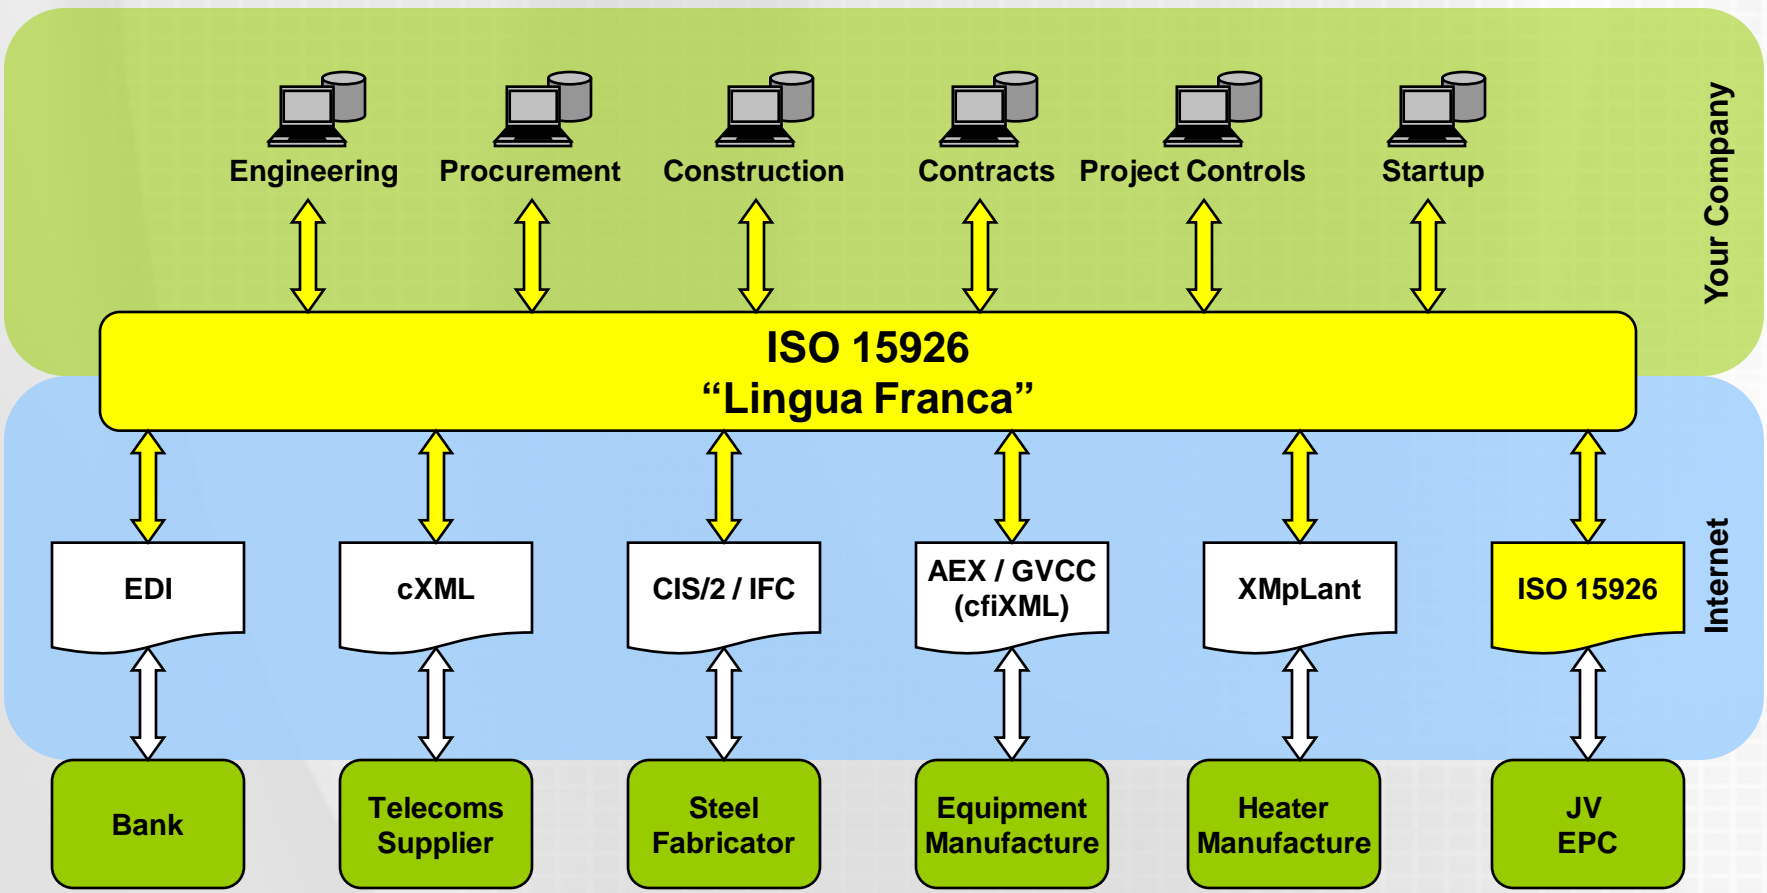

Information Ambiguity

- Data exchanges operate most successfully when ambiguity is eliminated
- Ambiguity between exchanging partners can require significant effort (labor) to remove
- The higher the ambiguity, the higher the cost to implement effective and efficient data exchanges

Ambiguity = Cost

Plethora of Standards

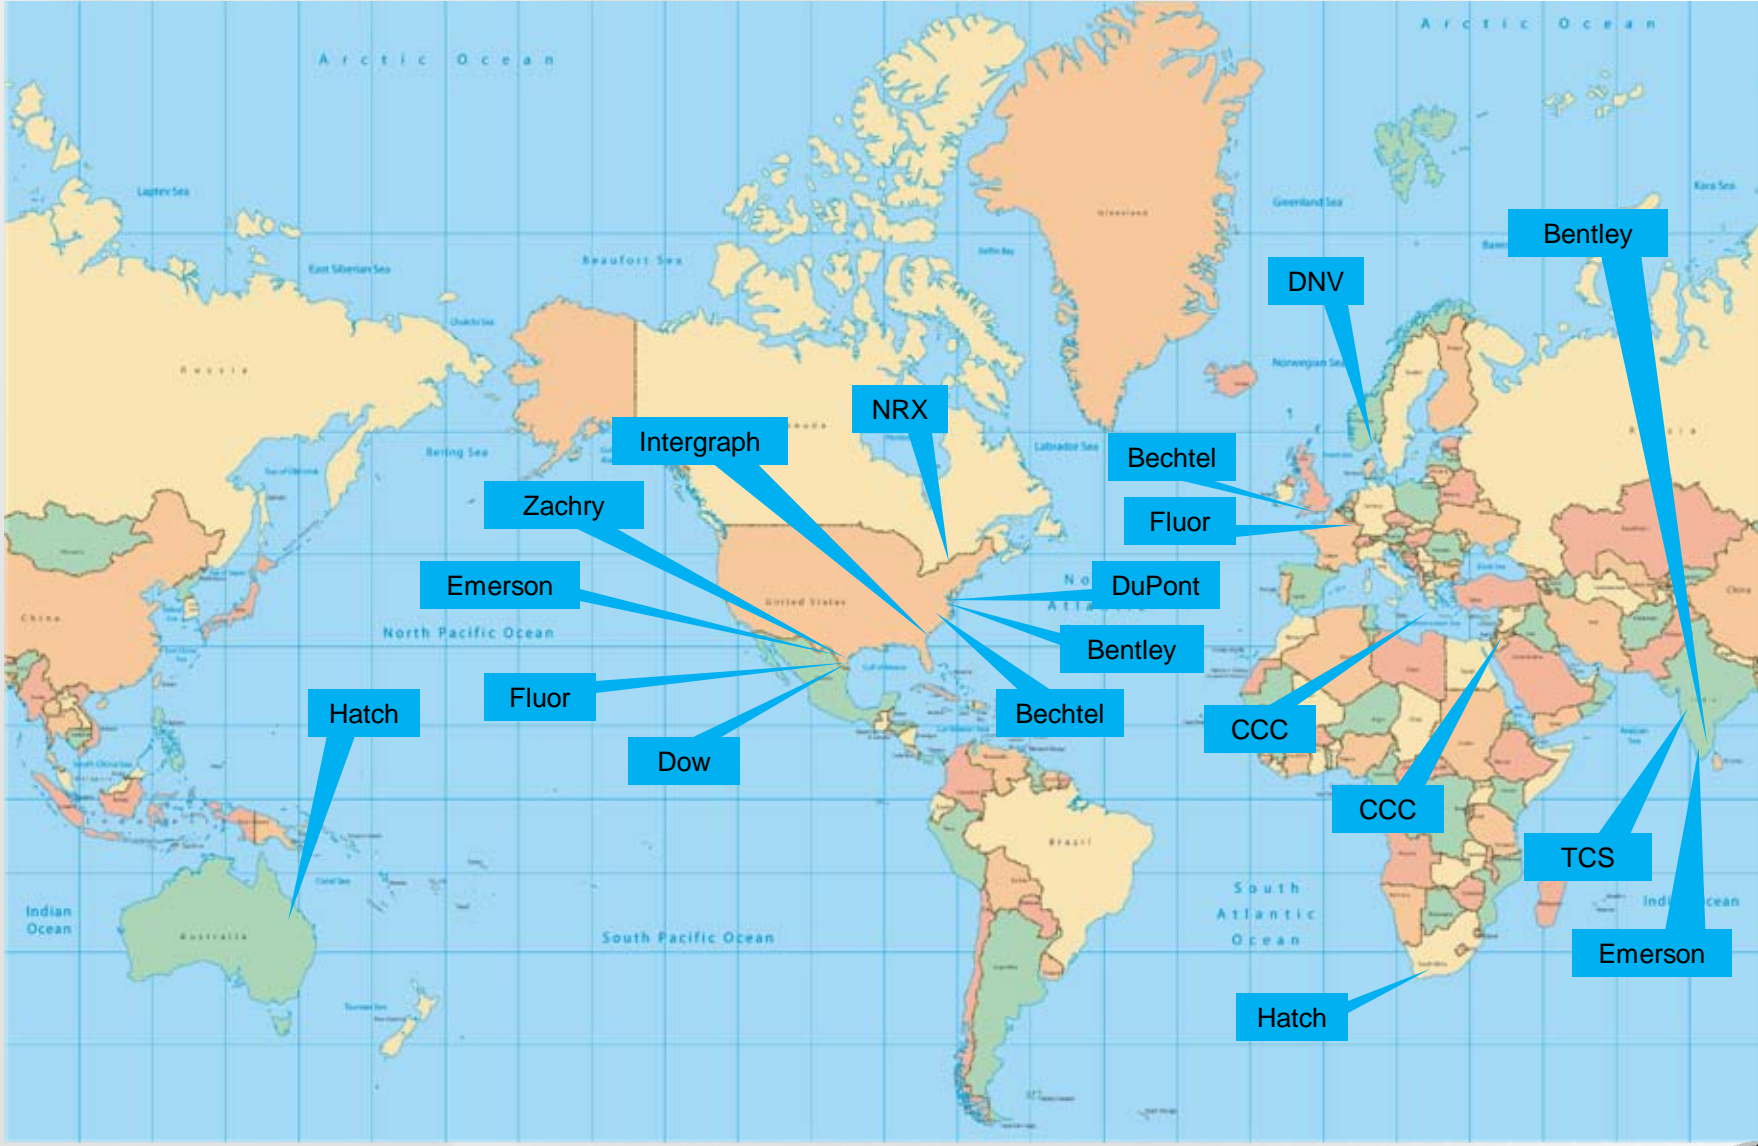

Camelot Objectives

- To build and deploy an ISO 15926, open source infrastructure on the internet and to show the following capabilities:
 - The use of ISO 15926 in modeling business information
 - The setup, configuration, and use of publicly available tools to map legacy systems to ISO 15926
 - The demonstration of several data exchange scenarios between several companies using ISO 15926 over the internet
- ... and make all of the deliverables available in the public domain, ready for business use by May 29th 2009***

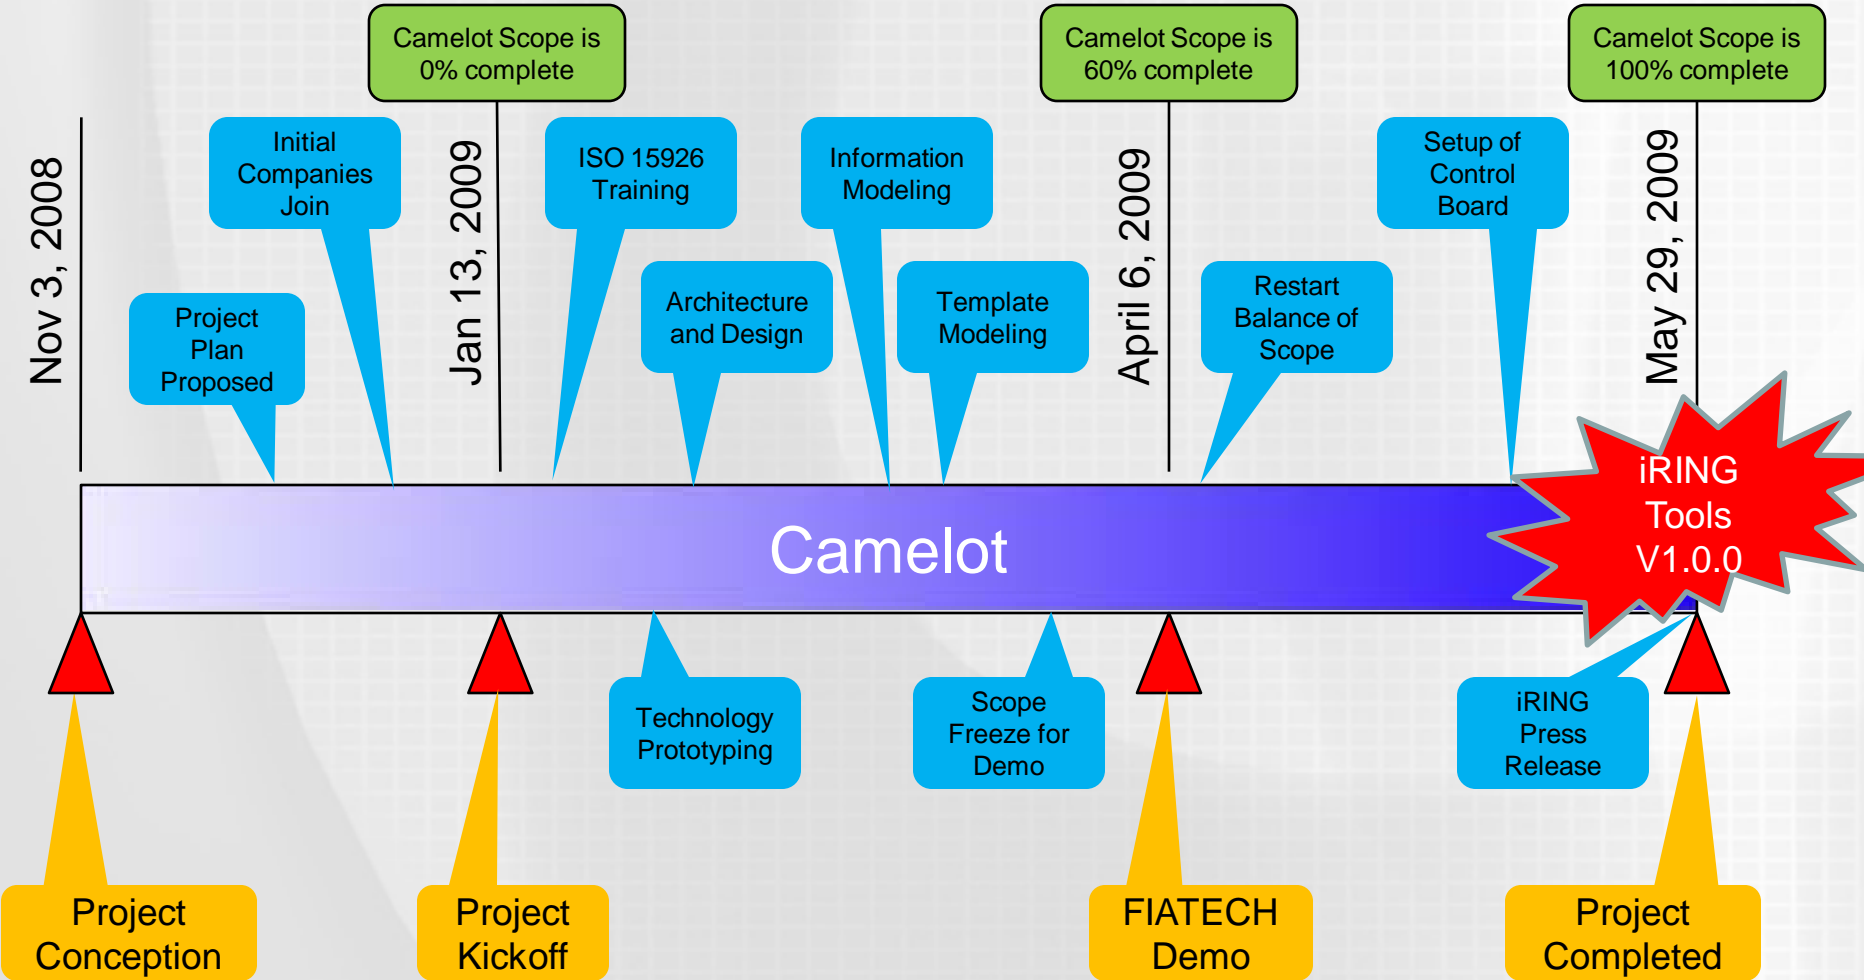

Camelot and the iRING

- Camelot was an industry collaboration project (POSC Caesar/FIATECH, IDS-ADI)
- Companies participated in Camelot:
 - Bechtel
 - Bentley
 - Chevron
 - Consolidated Contractors Company (CCC)
 - DNV
 - Dow
 - DuPont
 - Emerson Process Management
 - Fluor
 - Hatch
 - Intergraph
 - NRX Global
 - Tata Consultancy Services (TCS)
 - Zachry

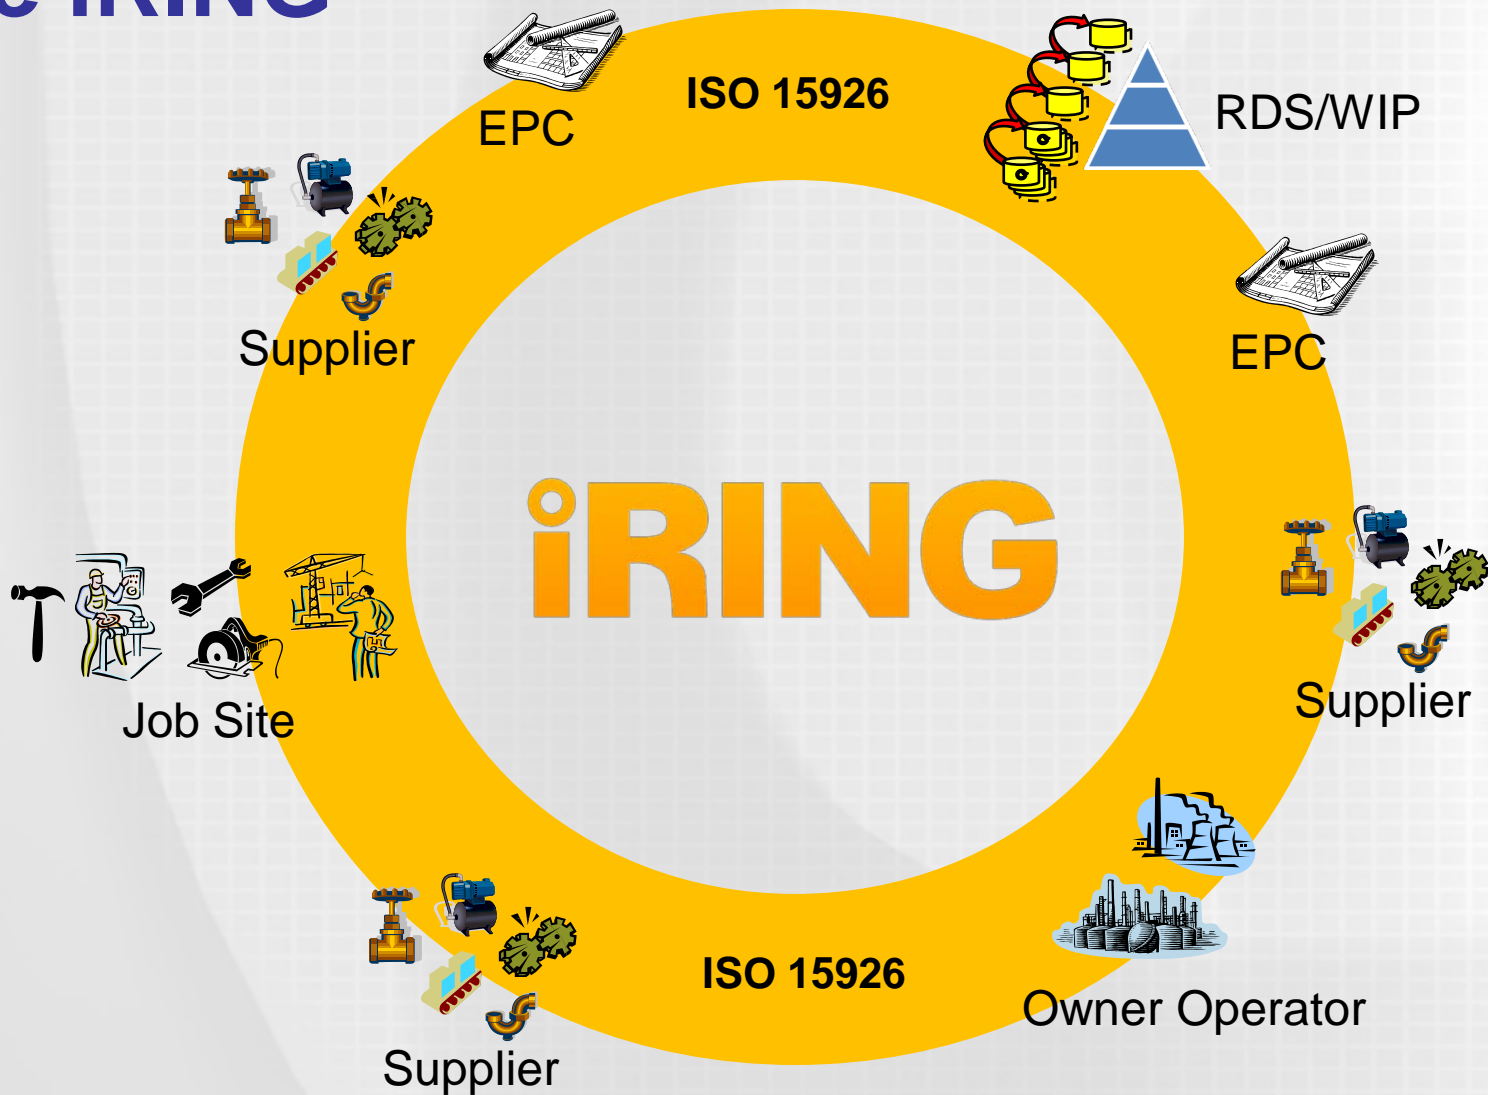

Camelot – A “Round the Clock” Project!

Realizing Open Information Interoperability

Demonstration Landscape

Realizing Open Information Interoperability

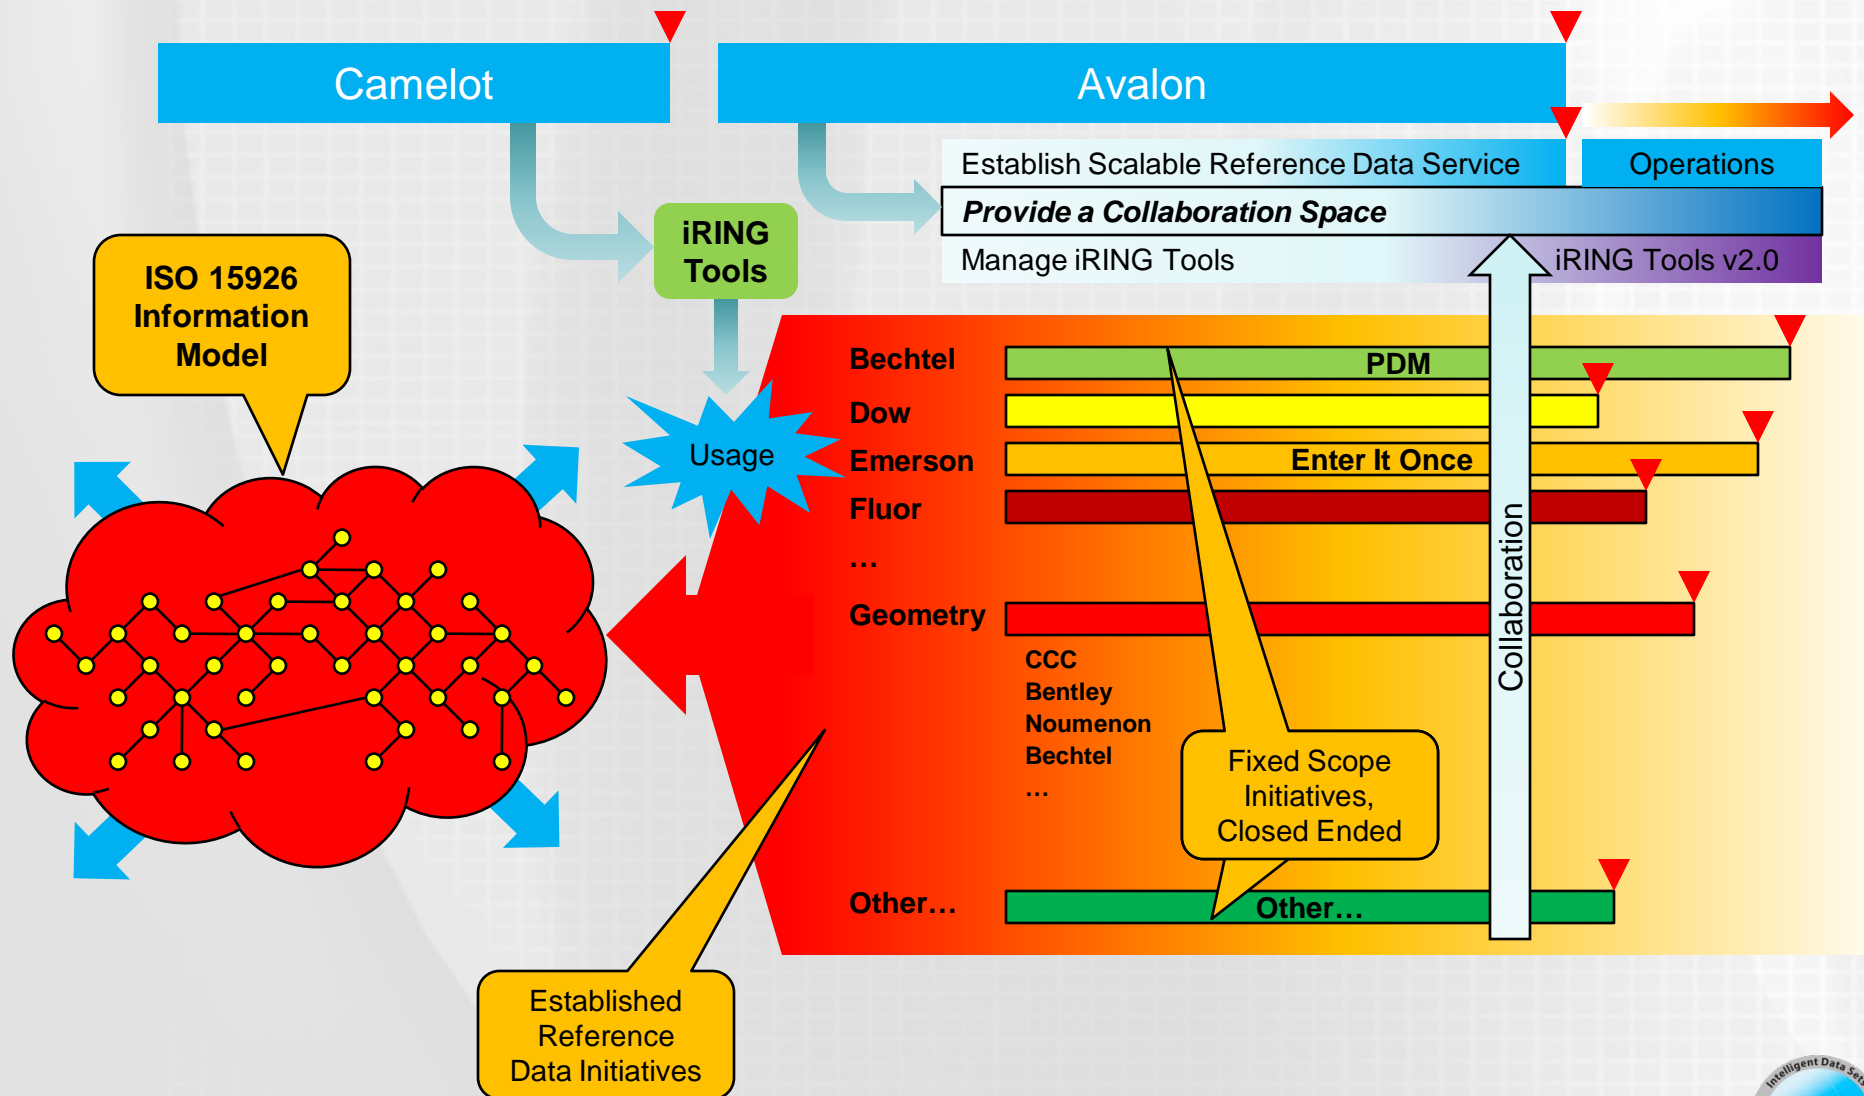

Avalon Project

- Purpose
 - To establish industry services that supports the open publication and collaborative generation of reference data
 - To establish a collaboration place for companies that are using and extending reference data
- Objectives
 - *Define and deliver a scalable ISO 15926 WIP*
 - *Provide the industry with a wiki on the usages of ISO 15926 (content collaboration)*
 - *Establish source code management and repository for iRING Tools*

Timeframe: June 10th, 2009 to November 20th, 2009

Avalon: Content Collaboration

Reference Data Hosting Service

- Avalon Project ends in November
- The scope that was centered on establishing the reference data hosting service is passing to PCA
 - Project has delivered a well defined requirements document
- PCA RDS/RDL Business Plan ad-hoc group is formed and will address the operational reference data hosting service
- PCA and FIATCH should collaborate on establishment of the operational hosting service
 - Common goals for a scalable hosting service

Coming Soon....

iRING **User Group**

<http://iringug.org>

Community of users interested in implementing ***iRING*** protocols and reference data.

Planned to kickoff before end of 2009

Will help drive the usage of iRING, provide guidance to iRINGTools, and provide support to the community

Recommendations to PCA

- PCA to use the Avalon Service Provision Requirements Document
 - <https://secure.ids-adi.org/repository/org/ids-adi/avalon/working-teams/service-provisioning>
- PCA to address the Avalon “Challenges”
- PCA support the completion of ISO15926 Part 7, 8, & 9 via funding of expert resources and leadership in TC 184/SC4
- Work with FIATECH and other organizations to develop a common plan for reference data hosting

The Takeaways...

- **Join the**

iRING
User Group

- **iRINGTools 1.0.1 available now!!!**
