

Minutes of Meeting

EqHub Work Groups

Time: 2010-06-22, 10:00-12:00
Venue: Phone and DNV, Høvik
Chair: Nils Sandsmark
Minutes: Lillian Hella
Present: Bjarne Thomassen, ABB (Phone)
Marit Opsanger, ABB (Phone)
Oddvar Skoland, ConocoPhillips (Phone)
Leif Gleditsch, SHAREcat
Magne Valen-Sendstad, PCA
Lillian Hella, PCA
Nils Sandsmark, PCA

Agenda:

1. Welcome and short presentation of participants
2. Short briefing about EqHub work with regards to common requirements/standardization
3. Common requirements for EqHub start-up 1st of July 2010
4. ISO15926 reference data for instrumentation per 1st of July 2010
5. Future work in Norway, USA and ISO
6. AOB

1. Welcome and short presentation of participants

2. Short briefing about EqHub work with regards to common requirements/standardization

Presentation of a spread sheet illustrating how requirements have been derived, as a result of collection of equipment used in two previous projects (Ormen Lange and Skarv). Summary of classification status shows that the majority of classes in scope are processed.

3. Common requirements for EqHub start-up 1st of July 2010

Feedback on the added information and structures is wanted. A reference to corresponding NORSOK data sheet in the product catalogue is advantageous.

4. ISO15926 reference data for instrumentation per 1st of July 2010

Spread sheet with ISO15926 concepts and definitions was presented as a taxonomy, and lists a tabular version of the terminology used in the EqHub project. Concepts and definitions are to be reviewed in this form, but a connection between formal definitions and guidelines should be provided.

5. Future work in Norway, USA and ISO

Work planned in the future:

- Bechtel is planning to host a 14 days SIG workshop 16-27. of August in Maryland, USA
- PCA is to prepare an evaluation process for commenting on developed reference data
- ISO standardization process of the instrumentation part to start within a year

6. AOB

No items were proposed under AOB.

7. Actions:

Action 10.04 PCA to send out Classification Status document (Lillian Hella)

Action 10.05: PCA to send out temporary hierarchy of concepts and definitions (Lillian Hella)

Action 10.06: PCA to send out information about SIG workshop in USA (Lillian Hella)
